UNIVERSITY OF IOWA STUDENT GOVERNMENT
Failure to meet these conditions/expectations shall result in removal from the Senate (or election ballot, should that be the case).

Whereas, the new sections of the Senator Code of Conduct will read (additions are highlighted in yellow, removals are struck through):

Accountability:

☐ Attendance: Have no more than two unexcused absences from Senate. Excused absences follow University of Iowa class attendance policy. If you are unable to attend a meeting, it is your responsibility to notify the Secretary, Speaker of the Senate, and Speaker Pro Tempore 24 hours in advance.

☐ Dress policy: Comply with the requirements of the business casual dress code at all General Senate and committee meetings.

☐ Office Hours: Complete one office hour per week (totaling four office hours per month) and document the time via SharePoint according to the guidelines of the UISG Secretary. One office hour per month may be completed by attending an external event hosted by a campus partner or student organization. Office hour completed by attending an external event also must be documented via Sharepoint according to the guidelines of the UISG Secretary. One office hour per month may also be completed at a cultural center or designated space deemed fit by the Speaker of the Senate, the Speaker Pro-Tempore, and the Justice & Equity Committee Chair.

Three unexcused office hours will be equivalent to one unexcused absence.

☐ Tardiness: Have no more than two unexcused tardies. Tardiness will be defined as more than fifteen minutes late to a meeting. Two unexcused tardies will be equivalent to one unexcused absence.

☐ Accumulating two or more unexcused absences automatically subjects your position to review for dismissal by the Speaker of the Senate, Speaker Pro Tempore, and Internal Affairs Committee.

Honor:

☐ Academic Standing and Conduct: Throughout the duration of office and during the time of election, senators shall maintain a minimum cumulative grade point average of 2.0.

☐ Non-Academic Standing and Conduct: Throughout the duration of office and at the time of election, senators shall remain in good non-academic standing, as determined by the Office of the Dean of Students, the UISG Executive and Senate leadership, and the UISG Adviser.

☐ Failure to meet these conditions/expectations shall result in removal from the Senate (or election ballot, should that be the case).

☐ I understand that I am a representative of the undergraduate student body of the University of Iowa. When addressing University of Iowa Student Government matters, I will speak to both my fellow senators and constituents in a respectful manner, despite personal disputes or differing opinions.

Communication:
☐ Be professional and prompt with email communication. I understand that I must respond to electronic communication within 48 hours (including, but not limited to emails, texts, calls, etc.)

Position Expectations:
☐ Complete assigned tasks and duties relative to my position to the best of my abilities. Adhere to committee expectations as described by my committee chairs.

*Exceptions or modifications to the above criteria may be granted to accommodate mental health conditions, medical conditions, and/or disabilities. Please contact the Speaker of the Senate at the start of the semester or as soon as possible to discuss accommodations.

Section 3. Position

Therefore be it resolved, The UISG Student Senate accepts the changes made to the UISG By-laws and makes them enforceable for the 2019-2020 UISG administration.

Section 4. Enactment Clause

Be it enacted by University of Iowa Student Government upon the signature of the President.

Student Senate Action: Post/Repeal/Tabulate

Resolution: USG

Sponsor: Student Services

I. Student Senate Session

II. Legislative Session

UNIVERSITY OF IOWA STUDENT GOVERNMENT

UIUC
$50,000 of requests during Review Period 4. By not funding travel and cutting all other requests by 50% of their original amount, SABAC allocated $12,878.52 during Review Period 4. The UISG Finance Team is currently establishing new funding guidelines that more accurately represent our current financial ability.

During Review Period 4, National Society of Black Engineers (NSBE) requested $6,022.90 to attend their Fall Regional Conference. Since these are travel funds, NSBE did not receive any funds for their trip. Below is the purpose of NSBE’s conference.

The Fall Regional Conference in St. Louis, MO provides NSBE with professional development workshops uniquely tailored for their members' identity backgrounds. The conference also includes many academic competitions that members participate in individually: for example, a hackathon, and most importantly, the NSBE career fair. The career fair has been proven semester after semester to provide the best access to our members to internships and full-time positions. They explicitly see this in comparison to the College of Engineering career fair, as the conference is always held right after it. Furthermore, the conference provides them with access to companies that do not come to the College of Engineering career fair—many of which have set target schools that dissolve when they are recruiting from NSBE membership. Their student interns and alumni members that get recruited by companies not present at the local career fair successfully advocate for current student members for recruitment—many times hosting an event at the college and sometimes even bringing these companies to their local fair (examples from this semester include TransUnion, Alliant Energy, Google, and United Airlines). At the conference, with the help of their advisor, they set up a booth advocating for the College of Engineering. High school NSBE members also attend the conference but instead of meeting with companies, they meet with university booths to help them decide where to go for school. Their NSBE chapter supports the college in attracting corporate partnerships as well as hosting some of the largest outreach events. They provide a lot of support to the university but have received little funding from the university this year.

Section 3. Budget

1
$400,000 for FY20 (to spend from July 1, 2019 to June 30, 2020). Split across 26 two-week periods (the frequency with which SABAC reviews requests), the Finance Team has between $11,500 and $15,000 to spend during each funding period. For reference, SABAC received over $50,000 of requests during Review Period 4. By not funding travel and cutting all other requests by 50% of their original amount, SABAC allocated $12,878.52 during Review Period 4. The UISG Finance Team is currently establishing new funding guidelines that more accurately represent our current financial ability.

During Review Period 4, the African Student Association (ASA) requested $1,906.59 for their Taste of Africa event. Since all non-travel requests were cut 50%, ASA was allocated $953.30. Below is the purpose of ASA’s event.

The African Student Association will be hosting their annual event, Taste of Africa. They aim to educate students on the different cultural cuisines that African countries have to offer. They want to reach out to more students this year to come out and enjoy this event. With that being said, their organization will need to print 75 colored flyers to post all around campus and funds for renting a venue and to buy groceries for the native dishes and caterers. The event will be on Saturday, October 5th at the Robert A. Lee Recreation Center. This event is for students, staff, and the Iowa City community.

**Section 4. Action**
I hereby, agree and certify that this bill originated from the 2019-2020 Student Senate Session.

Speaker of the Senate

Be it enacted by the University of Iowa Student Government upon the signature of President Mllis:

Section 5. Establishment of the African Student Association's Endowment Fund.

The University of Iowa Student Government will allocate $953.30 from LISG Committee 10.
WHEREAS, the total cost of equipping new IWU waste bins (for a plot) is $3.38.

There are currently 4 large sets of bins and 2 small sets of bins that will be placed in the

Section 2. Discussion

To allocate $4.42 to purchase new waste receptacles for the IWU in an effort to reduce compost

Section 1. Short Title

88'S.B.#12
Student Senate
Student Senate

S Anti- Littering Session
Whereas, UISG’s Green Initiatives Fund will allocate $4,500 towards the new waste receptacles.

Whereas, The IMU will allocate $4,442 towards the new waste receptacles.

Whereas, a similar piece of legislation was brought to the Student Senate during the 2018-2019 Student Senate Session and was tabled due to a low contingency budget.

Whereas, the University of Iowa pays for its waste management services. If recycling/compost is too contaminated to be properly sorted and disposed, money allocated toward these services is essentially wasted.

Section 3. Position
Therefore, be it resolved, the UISG will contribute $4,442 towards the purchase of new waste receptacles for select locations in the IMU.

Therefore, be it further resolved, the new compost bin system will coordinate with the common color schemes associated with waste diversion - landfill (black), recycling (blue), compost (green). The color scheme was informed by the advice of a UI cognitive psychologist.

Therefore, be it further resolved, the UISG Director of Sustainability and the Office of Sustainability and the Environment will conduct a waste audit to determine the efficacy of said receptacles.

Section 5. Enactment Clause
Be it enacted by University of Iowa Student Government upon the signature of President Mills.

the Ashton Cross Country Field to begin a tallgrass prairie restoration project in order to foster the growth of native plants and serve the student body through hands-on educational experience.

Section 3. Timeline

Phase One/Year One: Fall 2019-Fall 2020

In the fall of 2019, students measured and delineated an acre of unused land at Ashton Cross Country Course. To initiate the one-year pilot program, dead thatch (living and dead plant matter) will be removed from the acre prairie restoration project area and sown with native plant seed. Two small temporary signs have been installed to educate the Iowa City community on the progress of the prairie. Students will observe, measure, and monitor seedling germination and plant growth throughout the 2020 growing season. An additional staff member, the Land Steward Intern, will be funded by the Office of Sustainability to monitor and maintain the land. A decision in regard to the continuation of the pilot program after the first year will be based on the following criteria: seed planting and germination, land steward intern involvement, signage design and installation, and student educational experiences.

Phase Two/Years 2-5: Fall 2020 - Fall 2025

If the pilot program has been deemed successful, phase two of the project will begin in the fall of 2020. In order to expand the acreage of the restoration, land preparation will begin with the chemical killing of existing thatch and weeds using chemicals that University currently owns. Additionally, graphic design students will design durable, 4-season multilingual signs with translations in Spanish, Chinese, Arabic, and Braille to be displayed alongside the prairie. The signs will be created through 3D printing in collaboration with undergraduate students in the College of Engineering. In the spring of 2020, two acres of seed will be planted on Ashton Cross Country course on the prepared land. For the next five years, or until the prairie matures, continued general maintenance including mowing, weeding, burning, etc. will occur. During this phase, educational programming in collaboration with the Biology Department, Earth and Environmental Science Department, and/or the School of the Wild will begin. Athletics Grounds and Maintenance Staff, the Land Steward, and the Land Steward Intern will be responsible for these tasks.

Phase Three/Years 5+: Fall 2025+

The activities and opportunities listed above will continue into the future. There will be continued educational programming and promotion of the prairie at Ashton Cross Country Course. The partnerships with Environmental Science Club and Environmental Science students will continue, providing University of Iowa students with unique volunteer and internship opportunities for years to come. General prairie maintenance will continue to be supervised by the Land Steward and Land Steward Intern. In addition to the continuation of the above projects,
